

Shin Ikushima

Shin Ikushima - is a Project Manager for Lean Coaching Ltd , Wimbledon, London.

Lean Experience

Shin Ikushima has 25 years of hands on experience and knowledge of the Toyota Production System. His focus is always striving to find the root cause of bottle neck processes, improving safety, quality and cost for the benefit of all parties involved.

He uses his practical hands on skills and experience of the Toyota Production System to coach my peers and suppliers how to continuously improve Safety, Ergonomics, Quality, Cost and Productivity especially for struggling suppliers.

With his keen observation skills, Shin works with Management, Engineers and Operators to identify bottle neck processes and quickly carry out root cause analysis to provide sustainable countermeasures.

Shin's motto is "Simple is Best".

His favorite word is "Optimisation" and is currently used in all facilities which he has supported.
